

Spills kit - small (28g)

Clean up that messy spill quickly and safely!

Spills do happen! But when they do, cleaning them up, especially if containing blood and/or other body fluids, is now as easy as picking up solids, an encapsulating powder that combats bacteria, viri and other bacilli associated with infectious diseases.

How to.. Simply sprinkle "Red Z" powder over spill, wait a few moments, then shovel up sterilised and deodorized now solidly encapsulated matter.

Qty	Item	Use
1	Sufficient "Red Z" to encapsulate 1.5 Litres of liquid	place over spill
2	Gloves	hand protection
1	Shovel (plastic)	clean up spill
1	Scraper	clean up spill
1	Chloride Towlette	wipe up spill
1	Absorbent Towel	place over spill
1	Bio-hazard bag	place waste in
1	Anitseptic wipe	cleaning hands

The contents of kits may vary slightly from time-to-time, but the applicability of each kit to its purpose will remain.
